Chief, Shipbuilding Branch

25X1X6

Requirements.

REF : St/I/R Notice, Camp Kilmer Preliminary Interrogation Report on  
25X1X6 (ORR 10657)

1. The following requirements are forwarded in response to information contained in reference:

(a) How many ways are in operation at this shipyard? Give dimensions of the ways. Give total number of building ways at yard.

(b) What types of vessels are planned for future construction? Give main characteristics such as length, beam, draft, horsepower, light ship weight, deadweight, and gross tonnage.

(c) Are these vessels for export? If so, to what countries?

(d) How much does it cost the shipyard to build specific types of river and maritime vessels? Estimate cost of any new vessels to be built. Give breakdown of cost by labor, material, and profit.

(e) How much does it cost to produce 100-ton capacity floating cranes?

(f) What is the selling price of maritime vessels and floating cranes?

(g) Give number of employees at yard. Give number of hours in work day and number of days in work week.

(h) Give wage rates for specific worker skills, including laborers. What is the overtime rate? What is the average monthly or weekly earnings?

(i) To what extent did the recent uprising disrupt production or damage facilities in shipyards?
